|                                                           |                  |                                          |                                                           |
|-----------------------------------------------------------|------------------|------------------------------------------|-----------------------------------------------------------|
| Potencia. Power                                           | 12W              | Regulador de intensidad. Dimmable        | DALI/PUSH                                                 |
| Índice de reproducción cromática. Colour rendering index  | CRI>80           | Ángulo de haz. Light beam angle          | 120°                                                      |
| Índice de deslumbramiento Unificado. Unified Glare Rating | UGR≤19           | Lúmenes. Lumens                          | 1680Lm                                                    |
| Temperatura de trabajo. Working temperature               | 0° + 35°         | Temperatura de color. Colour temperature | 3000K                                                     |
| Protección contra sólidos y líquidos. Ingress protection  | IP20             | Eficiencia. Efficacy                     | 170 Lm/W                                                  |
| Voltage                                                   | 220-240V         | Clase. Class                             | I                                                         |
| Frecuencia. Frequency                                     | AC-50/60Hz       | Vida útil. Lifespan                      | 30.000 h                                                  |
| Led Driver                                                | TRIDONIC         | Uso. Use                                 | Interior. Indoor                                          |
| Garantía. Guarantee                                       | 5 YEAR GUARANTEE |                                          |                                                           |
|                                                           |                  | Materiales. Materials                    | Aluminio + PC opal Diffuser. Aluminium + PC opal Diffuser |
