## Detalles técnicos. Technical details

|                                                          |                                |                                          |                                      |
|----------------------------------------------------------|--------------------------------|------------------------------------------|--------------------------------------|
| Potencia. Power                                          | 72W                            | Regulador de intensidad. Dimmable        | DALI/PUSH                            |
| Índice de reproducción cromática. Colour rendering index | CRI>80                         | Ángulo de haz. Light beam angle          | 120°                                 |
| Temperatura de trabajo. Working temperature              | -10° + 45°                     | Lúmenes. Lumens                          | 6480 Lm                              |
| Protección contra sólidos y líquidos. Ingress protection | IP20                           | Temperatura de color. Colour temperature | CCT: 2700-3000-4000K                 |
| Vida útil. Lifespan                                      | 30.000 h                       | Eficiencia. Efficacy                     | 90 Lm/W                              |
| Voltage                                                  | 220-240V                       | Clase. Class                             | II                                   |
| Frecuencia. Frequency                                    | AC-50/60Hz                     | Uso. Use                                 | Interior. Indoor                     |
| Led Driver                                               | Bridgelux                      | Color. Colour                            | Negro y Oro. Black & Gold            |
| Garantía. Guarantee                                      | <div>3YEAR<br/>GUARANTEE</div> |                                          |                                      |
|                                                          |                                | Materiales. Materials                    | Aluminium+Iron+PC. Aluminium+Iron+PC |
